

Collection No.	4
Collector Name & Semester	Sevar Rashid Khursheed Semester 7 th
Collection Date	3 July, 2025
Scientific Name	<i><u>Anthurium andraeanum</u></i>
Family	Araceae
Common Name (Kurdish, Arabic and English)	زهرة البشروس - زهرة الغلام - زهرة الفلامينكو Flamingo flower – flamingo lily- painter’s palette گولی میخهکی
Location	Iraq, KRG, Sulaimaniyah, Sulaimani House Garden
Latitude & Longitude	~ 35.56° N ~ 45.43° E
Growth Form	<input type="checkbox"/> Tree <input type="checkbox"/> Shrub <input checked="" type="checkbox"/> Herb <input type="checkbox"/> Vine <input type="checkbox"/> Grass <input type="checkbox"/> Answer:
Condition	<input checked="" type="checkbox"/> Flowering <input type="checkbox"/> Fruiting <input type="checkbox"/> Vegetative <input type="checkbox"/> Answer:
Use	<input type="checkbox"/> Medicinal <input type="checkbox"/> Edible <input checked="" type="checkbox"/> Ornamental <input type="checkbox"/> Answer:

Abundance	<input type="checkbox"/> Rare <input type="checkbox"/> Occasional <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> Common <input type="checkbox"/> Abundant <input type="checkbox"/> Answer:
Soil Type	<input checked="" type="checkbox"/> Sandy <input checked="" type="checkbox"/> Loamy <input type="checkbox"/> Clay <input type="checkbox"/> Rocky <input type="checkbox"/> Answer: Loamy and Sandy
Plant part collected	<input type="checkbox"/> Leaf <input type="checkbox"/> Flower <input type="checkbox"/> Fruit <input type="checkbox"/> Seed <input type="checkbox"/> Root <input type="checkbox"/> Stem <input type="checkbox"/> <input checked="" type="checkbox"/> Whole Plant <input type="checkbox"/> Answer: whole plant
Plant Description	<p><i>Anthurium andraeanum</i> is a flowering plant native to Colombia and Ecuador. It is an evergreen perennial with large, dark green, heart-shaped leaves and brightly colored spathes that surround a pale to yellow or white spadix. The spathe is a modified leaf and is often red, though cultivars come in shades of pink, orange, white, and purple.</p> <p>The plant can grow up to 40–60 cm tall and prefers warm, humid environments with filtered light. It requires high humidity, consistent watering, and well-draining soil. While flowering can occur year-round, it is most profuse during warmer months. The plant rarely produces fruit indoors. The fruit, when present, is a small, fleshy berry.</p>
